

H2O Life. Style. Resort. Opens on Turks and Caicos Long Bay Beach

Oceanfront Wellness Retreat Engages Active Guests in a Consciously Designed Setting

July 5, 2021 - Long Bay Beach, Providenciales, Turks and Caicos - Opened in December 2020, H2O Life. Style. Resort. is the latest venture between Canadian entrepreneurs and hoteliers, Rob Ayer and Nicolas Boucher. After living and working in Turks and Caicos for many years, the business partners knew they had to develop a resort concept that would address a gap in the market --

a wellness getaway that invites active people to maintain and enjoy their active lifestyles in a consciously designed setting that honors the planet. H2O is an oceanfront lifestyle resort for active travelers who appreciate design and sustainable travel. The new resort opened safely and quietly in the midst of the global pandemic and looks forward to welcoming global travellers as the world begins to reopen and vacations resume.

Luxury Accommodations

H2O is a perfect destination for the socially conscious traveler who enjoys chic minimalism and brand new spaces combined with leading, personalized, boutique service. The 25 ultra-modern and luxuriously appointed suites are available in 1, 2, 3 & 4-bedroom layouts to host groups and occasions of all sizes. The resort's expansive suites are bright white with contemporary touches and furnishings by Restoration Hardware. The suites are designed so guests can enjoy daylong views of turquoise waters with expansive windows and walkout outdoor patios and terraces with crisp ocean breezes and views.

A Sustainable Setting

Ensuring a truly sustainable setting was a priority from the start and all design elements aim to protect the local environment. With a solar energy-powered grid, high-efficiency AC systems, energy-efficient lighting systems and water preservation practices, the resort is focused on minimizing its carbon footprint. H2O is the first resort on the south shore of Providenciales to take the necessary steps to making Turks and Caicos Islands "Greener by Nature" by enrolling in several initiatives designed to ensure tourism and the environment stay green.

An Active Traveller's Oasis

Long Bay Beach's welcoming winds make it the perfect destination for watersports of all kinds. Whether you need time to unwind with a novel on the beach or you're up for an adventure on the calm seas, there's no shortage of options. H2O is designed to help guests keep their wellness and fitness journeys on track with rooftop yoga, tennis, pickleball, basketball, kite surfing, paddle boarding, a 24-hour fitness center with available private training sessions and more. Guests are also invited to lounge poolside with the family at the child-friendly pool complete with a large hot tub, or relax at the oceanfront infinity pool to take in unparalleled views.

The Amenities

Endless comforts and consciously curated amenities make this seaside sanctuary the ideal location for a re-energizing stay. From complimentary island cruises in electric Tesla house cars

to certified kiteboarding and kite surfing instruction, H2O's amenities definitely set the property apart. What's more, each guest has a personal concierge regardless of the length of stay or suite booked. Guests' dedicated **Lifestyle Liaison** is always available to ensure expectations are exceeded from booking exclusive dinner reservations to arranging private boat charters.

HangTime Beach Bar

Cocktail hour is an island essential. Mix and mingle with others in the H2O community at local favorite HangTime Beach bar, where bartenders become pals and fellow guests become lifelong friends. Whether you're keen to chit chat after a day on the ocean or are heading down for a nightcap, the full service beach bar invites you to enjoy signature refreshments and world class cocktails while gazing out to the open sea. Reservations are never required.
